WE WELCOME OUR OBSTETRIC PATIENTS!

Thank you for choosing our practice for your obstetric care. On behalf of the entire staff, we are delighted you have placed your confidence in us. We are committed to providing quality medical care. A provider/patient relationship is a very special arrangement, one that requires the sharing of information. That is why we have prepared this packet. Please take a moment to read it carefully. It is designed to let you know how our office operates and what to expect when you visit.

The upcoming birth of a child is a period of great expectations for you and every member of your family as well as close friends. It's also a time when we, as your chosen providers, should keep in close touch and trust each other to be very open with one another. Your expectations from us are for the very best of professional medical advice. From you, we expect that you read and follow the advice we have set forth in this packet—except where we have distinctly advised you otherwise.

Our team consists of Board Certified Obstetricians and Gynecologists, Board Certified Nurse Midwives, and Board Certified Advanced Registered Nurse Practitioners. All of our providers care for our obstetric patients and work together as a team to bring you the ultimate patient care experience. Our providers rotate throughout our various locations, which will allow you to experience the knowledge of our team of providers during the management of your pregnancy.

We deliver our patients at Bayfront Medical Center, a modern Level III regional perinatal intensive care center. This facility combines luxurious rooms with the most advanced technology, making it a clear choice for your special delivery. We encourage you to take advantage of educational opportunities offered by both us and Bayfront to help prepare you for your new lifestyle.

If you are a patient at our Clearwater facility, we have made arrangements for delivery at Morton Plant Hospital with their on site hospitalist and residency program. Our patient navigator will assist any of our patients being seen at our Clearwater facility who wish to transfer care to Morton Plant for delivery purposes in the coordination of care. Our providers will then follow up with you postpartum at our Clearwater center.

We will make every attempt to schedule you during the most convenient times possible. Our goal is to provide the highest standards of care at times that are most convenient for you and to facilitate your visit in an appropriate amount of time. When you require an urgent appointment, we will make every effort to meet your needs. In return, we appreciate your being on time for appointment and letting us know when you are unable to keep your appointment time. If you need to cancel, please let us know as far in advance as possible to allow others to be able to utilize your scheduled time.

If you need to talk to one of our providers, please make non-emergency calls during office hours. Our team members will take some preliminary information and let you know when to expect a return call. If you are calling to have a prescription refilled, please call during office hours and be prepared to give our staff your pharmacy's telephone number. It is imperative that we always have a current and correct phone number for you so that our providers are able to reach you.

Our answering service will answer our phone calls after hours. Calls will be forwarded to the provider on call and will return your message in an appropriate amount of time. For extreme medical emergencies, go directly to the emergency room. The hospital will notify our on-call provider, who will coordinate your care at the hospital.

Once again, we are please that you have chosen us as your provider and we look forward to providing your care in the exciting days ahead!

The U.S. Department of Health and Human Services has established a "Privacy Rule" to help ensure that personal health care information is protected for privacy. The Privacy Rule was created in order to provide a standard for certain health care providers to obtain their patients' consent for uses and disclosures of protected health information (PHI) about the patient, in order to carry out treatment, payment or health care operations.

As our patient, we want you to know that we respect the privacy of your personal medical records and will do all we can to secure and protect that privacy. We strive to take reasonable precautions to protect your privacy. When it is appropriate and necessary, we provide the minimum information to only those we feel are in need of your health care information, treatment, payment and/or health care operations, in order to provide health care that is in your best interest.

We also want you to know that we support your full access to your personal medical records. We may have indirect treatment relationships with you (such as laboratories that only interact with physicians and not patients), and we may have to disclose PHI for the purposes of treatment, payment, or other health care operations. These entities are most often not required to obtain patient/guardian consent.

You may refuse to consent to the use or disclosure of your PHI, but this must be in writing. Under the law, we have the right to refuse to treat you, should you refuse to disclose your PHI. If you choose to give consent in this document, at some future time, you may request to refuse all or part of your PHI. You may not revoke actions that have already been taken which relied on this or a previously signed consent.

Your Health Information Rights

Although your health record is the physical property of the healthcare practitioner or facility that compiled it, you have the **Right to:**

- Inspect and obtain a copy of your health information, which includes billing information.
- Amend: If you feel that health information we have about you is incorrect or incomplete, you may ask us to amend the information. You have the right to request an amendment for as long as the information is kept by or for the facility. Any request for amendment must be sent in writing to the Center Director/Compliance Officer or designee.

We may deny your request for an amendment and if this occurs, you will be notified of the reason for the denial.

- An Accounting of Disclosures: You have the right to request an accounting of disclosures. This is a list of certain disclosures we made of your health information for purposes other than treatment, payment or health care operations where an authorization was not required.
- Request Restrictions: You have the right to request a restriction or limitation on the health information we use or disclose about you for treatment, payment or health care operations. You also have the right to request a limit on the health information we disclose about you to someone who is involved in your care or the payment of your care, like a family member or friend. Any request for a restriction must be sent in writing to the Center Director/Compliance Officer or designee.

We are required to agree to your request only if 1) except as otherwise required by law the disclosure to your health plan and the purpose is related to payment or health care operations (and not treatment purposes) and 2) your information pertains to health care services for which you have paid in full. **For other requests we are not required to agree.** If we do agree, we will comply with your request unless the information is needed to provide you emergency treatment.

- Request Confidential Communication: you have the right to request that we communicate with you about medical matters in a certain way or at a certain location. CHCP will grant reasonable requests for confidential communications at alternative locations and or via alternative means only if the request is submitted in writing and the written request includes a mailing address where the individual will receive bills for services rendered by CHCP and related correspondence regarding payment for services. Please realize we reserve the right to contact you by other means and at other locations if you fail to respond to any communication from us that requires a response.
- Complaints: if you believe your privacy rights have been violated you may file a written complaint with the Center Director/Compliance Officer or designee. You may also file a complaint with the Secretary of US Department of Health and Human Services.

COMPLIANCE ASSURANCE NOTIFICATION FOR OUR PATIENTS

To Our Valued Patients:

The misuse of PHI has been identified as a national problem causing patients inconvenience, aggravation, and money. We want you to know that all of our employees, managers, and doctors continually undergo training so that they may understand and comply with government rules and regulations regarding the Health Insurance Portability and Accountability Act (HIPAA) with particular emphasis on the "Privacy Rule". We strive to achieve the very highest standards of ethics and integrity in performing services for our patients.

It is our policy to properly determine appropriate use of PHI-in accordance with the governmental rules, laws, and regulations. We want to ensure that our practice never contributes, in any way, to the growing problem of improper disclosure of PHI. As part of this plan, we have implemented a Compliance Program that we believe will help us prevent any inappropriate use of PHI.

We also know that we are not perfect! Because of this fact, our policy is to listen to our employees and our patients without any thought of penalization if they feel that an event in any way compromises our policy of integrity. More so, we welcome your input regarding any service problem so that we may remedy the situation properly and promptly.

Thank you for being one of our very highly valued patients!
